

Greens Mowing Instructions

1 Get Garage Door Key

Roll out the riding mower.
Bring out the grass catcher on the mower.
Roll out the greens mower

Preparation for mowing

Check the gas

Fill gas if there is any question.
(NEVER fill gas on the green.
It kills the grass.)

Start

Turn switch on - Down is Start.
Gas on - lever forward.
Choke engine - lever toward back.
Engage engine start rope - pull.
Turn off choke when engine has started.

Moving

Safety bar on handle - squeeze.
Forward lever - engage slowly.
Throttle up to medium low RPM.

Throttle

Forward

2 On to the Green

Place Greens ramp
Remove travel wheels
Lean mower forward -
bring down kick stand.
Wheel tab down and
pull to remove wheel.
Lean mower forward - kick stand will
snap up (don't get hit).

Start engine
Roll down ramp
Squeeze safety bar
Forward lever - slowly engage

Go to Greens corner
(See direct chart in club house)
Engage Blade
Install Grass Catcher
Set medium RPM
Slowly engage Forward lever.

Turns
Let go of safety bar about
4 feet from ditch
Turn to next path -
turn mower 180 degrees
Adjust path so the mowed green edge
is even with the edge of the
Grass Catcher logo.

Last, do the 4 edges of the green.
Watch the Greens edge board -
when above the grass don't let cutting
blades near.

**Engage blade
Shown off
Turn to right = ON**

3 Off the Green

Before going up ramp -
disengage cutter lever.
Remove grass catcher.
Tip mower to keep blades off ramp.

Cleaning

Set water access

See water control in club house

**Always reset to the
Round Dial to
Found Position**

Set Round Dial to **Manual**

Set Program to **C**

Use Left/Right Arrow to set
#5 (non-blinking #)

Set Time Square Button
up/down (flashing #) -
a good time is 10

Turn Dial to **Run**
(The flashing Water Water symbol
confirms the correct setting.)

(When done - reset Round Dial.)

4 Get the short cleaning hose from the hook above mower storage area.

Hose 'tab" in water pipe slot.
Turn 1/2 turn Clockwise.

Turn lever on at water nozzle.

Clean the mower completely.

Put Wheels back on.

Back to the Garage

Replace mower.

Set grass catcher on top.

Rehang hose.

Return garage key to hook.

Go to Water Control.

Reset round dial to Found Position.

Remove Ramp From Greens.

Ramp left on green on a warm sunny day
will kill grass.

Mowing Directions

(Check club house for updates and confirmations)

Monday / Tuesday - both greens mowed NE to SW

Thursday / Friday - both greens mowed NW to SE
